

## **Personal Code of Ethics**

I pledge...

1. to always ask permission before I deliver any sort of treatment to another. This includes but is not limited to prayer, distance healing, surrogate healing, hands on healing, and any complementary or medical (first aid) healing that I perform. Let it be known that healing happens through me, not by me but from the unseen, underlying, all-pervasive loving light of the Spirit of the Universe.
2. that my intention shall always be driven by compassion, and that I shall serve to cultivate an aura of empathy and wisdom.
3. to respect the common good, with due regard for public safety, health, and order.
4. to respect and seek to preserve the autonomy and dignity of each person I meet, refraining from any sexual innuendo, racial slurs, or gender bashing.
5. to keep up my spiritual training and practices so that I may become even more competent and thus better able to serve those I am trying to help.
6. to maintain my integrity in all that I do and say. I recognize that my clients are often vulnerable and open to suggestion, manipulation, and exploitation. I, therefore, vow to protect participants, and not allow myself or anyone else to use that vulnerability in any way to harm them.
7. to maintain a quiet presence in the community, helping where I can, and referring to others when I cannot help.
8. to keep my fees either in line with or slightly below the norm for that modality and to always leave room in my heart and in my healing room for those who cannot pay.
9. to practice love and tolerance of those whose beliefs differ from my own, and refrain from heated debate or obsessive thinking about these things. I vow to 'stay in my own energy' and 'Live and Let Live'.
10. to not disclose any personal or identifiable details of my cases to anyone whatsoever, preserving the confidentiality of my relationship with my clients/students, while at the same time recognizing the need to share 'case histories', anecdotes, research, and referrals.

## **Mission Statement**

I am dedicated to creating truthful and endearing photographs, writings and art and transforming them into enjoyable objects that inspire others to delight in the beauty around and inside of them.

My purpose is to help others through Holistic Healthcare; and to love, listen to, and to lighten as many people as I can.

## **My Credo**

I believe that we are all beings of Light made manifest on earth by the  
Source of All That Is.

I believe that our goal is to grow in Spirit and to help others to do the same.

I believe that the way to do that is by being a living example of peace and goodwill,  
of hope and cheer, of calm and acceptance to one person at a time.

I believe that being surrounded by natural beauty enables us to feel naturally beautiful.

Wonderful sights, sounds and smell of the ocean, a flower, or the forest,  
refill the senses. We feel refreshed and we want to pass it on to others.

I believe that by making a special connection to each person I see,  
by smiling and looking them in the eye,  
makes a real difference in their lives as well as my own.

I believe in survival of the soul.

I believe we go back to the  
Source of All That Is

for renewal and are sent back as Angels.

I believe in the goodness, gentleness, and faithfulness of the Universe.

I believe the Source sustains me and holds me firmly in the 'palm of its hand'.

And I believe all is as it should be.

Amen
