

How I came to ThetaHealing

I first heard about ThetaHealing in January 2008. That month, I'd trained a woman to Reiki Master and she told me she'd just heard about a man in her homeland of Iran who did healing with Theta brainwaves and asked me if I'd ever heard of it. I told her I hadn't. A week later, I did some research on this and found Deanna LoTerzo's website. On February 13, Norm was diagnosed with colon cancer. I intuitively knew that ThetaHealing would help him so I signed up for the Basic DNA2 three-day class. It took place the last weekend of February.

My husband had a strong feeling that he would not survive without chemo-therapy and I honoured that. For nine months I did daily downloads of feelings and healing work for my husband. It has been a privilege to be of service to him in this way. ThetaHealing has helped him through all the tough times he had to endure due to the chemo. He is now not only free of cancer but also free of the side-effects of chemo. Along with daily ThetaHealing, he received daily Reiki sessions, prayers and healing from over five thousand people world-wide – our friends, clients, and students, Essiac Herbal Formula, and a herbal formula I created for him of equal parts Cat's Claw, Burdock Root, and Pau d'Arco. He is now full of life and vigour and we are grateful. We are sustaining the life-style changes in diet and exercise, too.
